

WAIVE[®] MOBILE

WORK FASTER, STRESS LESS, GET MORE DONE

THE PROBLEM

Too Much Admin, Not Enough Time

Field technicians spend too much of their day on manual data entry, note-taking and digging through the app for customer details. Every minute on admin is a minute not spent on the lawn, and it adds up to fewer stops and longer days.

THE SOLUTION

A HANDS-FREE ASSISTANT IN EVERY TRUCK

WAIVE Mobile is a voice-enabled AI assistant built right into the RealGreen Mobile app. It handles routine tasks, answers questions on the spot and takes notes by voice, **so technicians can move through every job faster, with less hassle.**

How WAIVE Mobile Supports Technicians:

LESS BUSYWORK, FASTER JOBS
